Dear David:

Thank you for the Fax regarding the licensed LPTV and construction permits. We are interested in acquisition of your offering. However, additional information is required for us to continue the evaluation process. Will you please provide us with site contacts for Lancaster and Lebanon? What is the lease fee for the Dillsburg facility? How long is the lease set up for? The same information is required for the York facility. An inventory of equipment for the Dillsburg facility including model type, new or used, etc. would also be of assistance to us.

Please also advise of your asking price for the package of one (1) operating facility with equipment and five CP's. Is there land at each site for a Satellite Earth Station (3.2 meter)?

We appreciate the opportunity to evaluate this potential acquisition. Please call at 714) 665-2128 if questions arise.

Sincerely,

George D. Sebastian

Dear Tom:

So nice to be able to work with you again. I look forward to many new projects and will contract you where possible.

We are negotiating the purchase of W40AF, an operating LPTV licensed to Pittsburg, PA by the Raystay Co., aka The Waymaker Company. Their address is 1416 Trindle Road in Carlisle, PA 17013-0038. My contact is Mr. David Gardner, phone 717) 245-0040, FAX 717) 245-9277. Mr. Gardner is aware of your impending visit and will work with you to access the sites, etc.

Please examine W40AF for the type and condition of the equipment in service, Model # would be appreciated. On the site survey only, please determine if the site will accomodate our normal requirements.

We agree to your per diem of \$200.00 per day plus reasonable expenses. This contract has a maximum allowable of \$600.00, based on two (2) days of work plus expenses.

As you know, I will be in travel while this survey is being conducted. You can reach me at 503) 883-1529 if required.

Sincerely,

George D. Sebastian

Dear Mr. Sebastian:

This letter is to advise you of the lease fees and package price you have requested for the LPTV facilities of Raystay Co.

The lease fees would be proposed as follows: Tower site at Dillsburg, PA, which includes use of the tower and space inside the building for transmitter \$400/month; Microwave site at 1312 Holly Pike, PA, which includes use of the tower and space inside the building for associated microwave equipment \$300/month; Space at 1312 Holly Pike (if required) for earth station \$50/month; Space in the tower at Red Lion, PA, and space for an earth station \$300/month.

The leases for the Dillsburg site, Red Lion site, and 1312 Holly Pike site would be negotiated with you for a time period acceptable to both you and Raystay Co. Since these sites are owned by us, we could enter into long term leases.

The package price for the six facilities including equipment for the LPTV presently on the air is \$400,000.

Raystay is presently negotiating with other parties who have expressed interest in portions of our LPTV holdings. Existing discussions are focused on both the TV40 operations in Carlisle/Dillsburg and transfer of the construction permit for the Red Lion site. In the event that Trinity is not interested in the total Raystay LPTV package, we would entertain discussions regarding transferring any remaining construction permits to you at the nominal costs incurred in obtaining them.

Please call either Lee Sandifer or myself if you need further information.

Sincerely,

David A. Gardner

Dear Dave:

Our records reflect that our legal fees and expenses for the five unbuilt low power authorizations total \$15,397.03. We are also aware of an additional cost of \$1,875 for FCC filing fees.

To this credit can be given for out-of-pocket expenses incurred in:

1. Consulting engineering fees (\$7,275, Bob Hoover)
2. Obtaining antenna sites (Telsa, \$1,092.01) and any rental or other fees paid in connection therewith.
3. Any travel expenses incurred in obtaining the permits and/or investigating equipment, sites, or any aspect of effectuating the permits.
4. Any equipment which would be assigned to the Buyer.

With regard to payments to others, research of Commission precedent indicates that allocation of time spent by officers, directors, or stockholders in Raystay would not be credited. These cases thus seem to indicate that salary payments to employees who are not in the above categories could be credited.

We thus believe that compensation totalling \$30,000 could be justified. We would also point out that since the unbuilt permits expire shortly it would be very important to promptly file any assignment agreements. Further, the Buyer would need to be prepared to assure the Commission of an intention to go on the air in a reasonably prompt manner. Thus, the public interest justification for allowing the assignment would be that such a transaction would hasten the commencement of service, rather than having the frequencies revert to the Commission for new applications.

We await further instructions.

Best regards.

Sincerely,

Morton L. Berfield
